BOLD, AUDACIA EN EL LIDERAZGO

An effective leadership means being prepared to move forward with new ideas and a bolder approach: leaders must combine a bolder approach with other key skills, such as good judgment and relationship building.

The objective of this program is to discover and work on the behaviors and characteristics of leaders who are bolder.

We will help each participant:

• Identify the way their behavior contributes to a more energetic and bolder leadership culture and promotes a result-oriented strategy.
• Discover behaviors that are key to a bold mindset.
• Identify, through preference self-assessment, the specific behavior areas where a bold approach is being developed.
• Learn how to make good use of bold leadership in a team.
• Receive tools that will help create an action plan to develop the skills of a bold leader.

CUSTOMIZATION

Bold can be customized to the needs, skill models, culture and preferences of each company and can be linked to their performance, career and/or talent systems.

PARTICIPANT’S PROFILE

Bold is aimed at leaders of all levels, from senior executives to mid-level managers.

LANGUAGES

Bold can be taught in 12 languages and 38 countries.
¿WHY ZENGER & FOLKMAN?

According to Leadership Excellence, founded by Warren Bennis, Ken Shelton, Stephen Covey, Ken Blanchard and Charles Garfield, Zenger Folkman Co. has been recognized for the last 14 consecutive years (2006/2019) as the leading independent firm for coaching and leadership skills development in the US.
